WP8	IO PAN	Ethics requirements	1	54

OBJECTIVES

The objective is to ensure compliance with ‘ethics requirements’ set out in this work package.

We will follow EU GDPR regulations in the EU countries and in the UK. Minimal data will be recorded for the stakeholders (name, address, email and telephone number) for effective communication.

National legislation will be followed regarding sampling of species and in protected areas. National and European data protection regulations will be followed. Any laboratory or field experiments will be carried out with full ethical approval of the host laboratory and all details will be recorded. The removal of any species or habitats is unlikely but will be minimised where possible and as necessary. It is of note that all activities in non-EU states are also being carried out in EU states.
