

On 7th June we take a part of International Sopot Youth Conference 2024 entitled Where the World is Heading? dedicated to young scientists or science enthusiasts, university students, Ph.D. students and young doctors (up to two years after defense). They presented their work, visions, opinions, and thoughts in two thematic blocks: humanities and social sciences and the second one – natural and physical sciences. As a part of Scientific Committee we would like to share the final results and Agenda!

All information about the conference under the link!
