

Unique contribution MARBEFES makes towards the OUTCOMES and the WIDER IMPACTS

Overall objective

MARBEFES aims to enable biodiversity recovery by developing tools and methods supporting Horizon Europe's goals for ecosystem restoration and sustainable resource management.

The project will produce a marine ecosystem valuation handbook and integrate scenarios that assess human and natural dynamics. MARBEFES actively involves stakeholders across international, regional, and local levels, ensuring that findings reach policymakers, managers, and the public. Through accessible outreach, the project communicates biodiversity's value, fostering societal engagement in ecosystem health and policy.

Readiness Level (TRL) of 2, and the project aims to elevate it to TRL 6 upon completion.
